

Carey Bailey

equipping women who crave abundant life

Carey Bailey is a life coach, teacher and dreamer who equips women with practical tools and resources so that they can live out an abundant life saturated in God's truth.

I've personally benefited from being life coached by Carey Bailey and I frequently refer others to her as well. Carey will help your dreams and goals become a reality while providing encouragement and insights for where you are today too.

Holley Gerth, certified life coach, speaker and best selling author of *You're Already Amazing* and *You're Made for a God-Sized Dream*.

Through humor, honesty and plain ole' truth Carey shares her struggles to find God in seasons of chaos, her battle with attempting to live perfectly that resulted in two rounds of an eating disorder and the victory that eventually came in discovering how to live her life authentically.

Carey is equipped with a degree in Religion, 20 years of experience in full-time church ministry and her life coach certification through Life Breakthrough Academy.

Carey's efforts in full-time ministry have allowed her over 20 years of public speaking and small group facilitation experience in mega-churches, national conferences and retreats. She has spoken at weekend church services with crowds equaling 3,000, led women's retreat with attendance of up to 50, and facilitated small groups of 8. She finds joy and fruit in teaching no matter the size. She has a gift for equipping women in their quest to know and be in relationship with God and is ready to inject creativity and inspiration into your next women's event.

Carey is currently scheduling events for 2016 & 2017 and would love the opportunity to partner together to meet the women in your church, small group, or ministry as they seek to live an abundant life walking with God. Carey's talks are interactive conversations that encourage women to brainstorm, think with fresh perspective, and live out life with God's word as their guide.

Booking Carey Bailey for our Women's Christmas Banquet was the best decision we made! Carey's friendly, humorous speaking style had us both laughing and crying, but mostly left us incredibly inspired! The women are still talking about her and we can't wait to have her back again!
