PRAYING THE SCRIPTURES

1. Read the scripture once and ask yourself what word or short phrase jumps out at you first?
2. Read the scripture again but this time read it out loud and ask yourself what word or phrase jumps out at you during the second reading? (It might be the same as step one)
3. Read the scripture a third time and this time write down what word or phrase jumps off the page at you. After you are done reading write down what you feel like God is trying to say to you through His Word. (Again, it might be the same as step one or two. It also might not be. Trust God.)
